Modern cars are more computerized than ever. Infotainment and navigation systems, Wi-Fi, automatic software updates, and other innovations aim to make driving more convenient. But vehicle technologies haven't kept pace with today's more hostile security environment, leaving millions vulnerable to attack. The Car Hacker's Handbook will give you a deeper understanding of the computer systems and embedded software in modern vehicles. It begins by examining vulnerabilities and providing detailed explanations of communications over the CAN bus and between devices and systems. Then, once you have an understanding of a vehicle's communication network, you'll learn how to intercept data and perform specific hacks to track vehicles, unlock doors, glitch engines, flood communication, and more. With a focus on low-cost, open source hacking tools such as Metasploit, Wireshark, Kayak, can-utils, and ChipWhisperer, The Car Hacker's Handbook will show you how to: -Build an accurate threat model for your vehicle -Reverse engineer the CAN bus to fake engine signals -Exploit vulnerabilities in diagnostic and data-logging systems -Hack the ECU and other firmware and embedded systems -Feed exploits through infotainment and vehicle-to-vehicle communication systems -Override factory settings with performance-tuning techniques -Build physical and virtual test benches to try out exploits safely If you're curious about automotive security and have the urge to hack a two-ton computer, make The Car Hacker's Handbook your first stop.

The Survivor Manual is the real deal--based on techniques taught to the U.S. Armed Forces and tested in actual survival situations over decades, the information in this book could help you beat any weather condition, any circumstance, any odds. This fully illustrated guide will show you how to: --find direction and orienteer --perform first aid --travel over every type of terrain from glaciers to quicksand --identify edible plants --fish and trap --spot poisonous plants and snakes --withstand a blizzard --build a raft --construct a shelter --live through an avalanche --survive in groups --and much, much more CBS' "Survivor" is the most successful new television show of the 21st century. Mark Burnett is the show's Executive Producer along with creator Charlie Parsons.
