The first known book published by Aikido Founder Morihei Ueshiba ("Moritaka Ueshiba" at the time of publishing) was the 1933 training manual "Budo Renshu" (published in English under the name "Budo Training in Aikido"). This manual was initially given to his students as a kind of a teaching license.

Aikido and the Dynamic Sphere: An Illustrated Introduction provides a complete foundation in the practice of one of the most distinctive and effective Japanese martial arts. Aikido was created in Japan in the 1920's by Morihei Ueshiba, also known as Osensei. To possess the skills, techniques and attitude of the true practitioner of aikido, one must achieve a very high level of integration of the powers of mind and body, the harmonious combination of physical means and ethical motives. By controlling body position and learning how to harmonize vital physical and mental powers, anyone (regardless of size, strength or weight) can fend off attacks using this sophisticated martial art. Written and illustrated by husband/wife team, Oscar Ratti and Adele Westbrook, Aikido and the Dynamic Sphere, with over 1,200 illustrations, includes many Aikido techniques in chapters such as: What is Aikido? The Foundations of Aikido The Practice of Aikido The Basic Techniques of Neutralization Advanced Practice And more!

The guide is divided into two parts:1) theoretical aspects of aikido2) practical aspects.Particular attention is paid to the psychological component of the organization of training. The authors pay considerable attention to the history of the origin and development of aikido and its philosophical foundations. A separate part of the manual is devoted to the methods of organizing and conducting trainings.The book may be intrested to instructors who teach aikido and those who practice this art.

Master the wooden weapons used in Aikido with this comprehensive martial arts training manual. Although aikido is often thought of as a nonviolent, noncompetitive martial art, the use of weapons was introduced by the art's founder O'Sensei Morihei Ueshiba. In fact, aikido techniques that use wooden weapons can enrich all aspects of your practice, helping you to understand both basic and advanced aikido technical tactics as well as conceptual strategies and skills. Building on the authors' belief that no empty-hand system is complete without weapons training, Aikido Weapons Techniques: The Wooden Sword, Stick, and Knife of Aikido demonstrates weapon use both as a training tool to better illustrate aikido principles, and as a self-defense against weapon attacks, focusing on the three primary weapons used in aikido: Ken—the wooden sword Jo—the wooden staff Tanto—the wooden knife A complete discussion of each weapon is included, with descriptions of the stances, grips, techniques, forms, defenses, and training appropriate for each. With over 200 step-by-step photographs and detailed instructions, this aikido book provides an in-depth exploration of weapons use in aikido—from its spiritual implications to technical theory and practical use.

Combat Aikido is term used to describe a hybrid of traditional Aikido which breaks the art form down to its martial roots. It disregards some of the philosophy and many of the less effective techniques of traditional Aikido, concentrating instead on only on the martial application of the art form. Combat Aikido is a training manual for anyone seeking to learn a realistic form of the martial art of Aikido. Combat Aikido techniques are only those which will work in real fights where there are no rules and losing is not an option. Combat Aikido explains only practical Aikido techniques in an in depth and easy to learn and easy to understand format. This book is written and designed to be used by those with no prior martial arts training. Its down to earth, practical application of the art of Aikido will benefit those with years of formalized training as well.

With over 100 illustrations and 300 pages of detailed techniques and exercises, this has proved itself as the definitive guide to this peaceful martial art.

In 1789, King Chongjo, ruler of the Yi dynasty, ordered General Yi Duk-moo to compile an official textbook on all martial art forms then present in Korea to preserve them for future generations. The result, the Muye Dobo Tongji, is the only surviving classical text on the Korean arts of war. Based on the earliest known Korean martial arts treatise, the Muye Chebo written in 1599, the Muye Dobo Tongji clearly shows the influence of the neighbouring Japanese and Chinese armies. Through hundreds of wars and invasions, Korean soldiers adapted battlefield skills and tactics from their enemies, creating a unique system of their own. Organised into 24 distinct disciplines comprised of empty hand fighting, weaponry and horsemanship, this book is an accurate historical snapshot of the warrior arts of the hermit kingdom in the late 18th century. The release of 'The Comprehensive Illustrated Manual of Martial Arts of Ancient Korea' marks the first time this volume is available in English. Carefully translated from the original text and illustrated with reproductions of ancient woodblock carvings, this book provides fascinating insights into Korea's martial arts legacy.

Aikido combines elements of self-defense technique, spiritual enlightenment, and self-confidence into a complete system for physical and spiritual health. This simple but thorough guide, aimed at both men and women, explains the origins, history, theory, and philosophy of aikido and gives detailed, illustrated instructions for aikido's essential techniques. Topics include "dojos" (formal training halls), uniforms, weapons, and breathing practices and explanations and complete demonstrations of groundwork, leading and throwing against punches, strikes and cuts, immobilization techniques, timing, and weapons training.

In the past twenty years, the Aikido population has increased tremendously in the United States, primarily because of the vast number of comprehensive American instructors. Greg O'Connor walks the reader through the history and philosophy of aikido. He then, in short chapters peppered with photos and illustrations, answers common questions about etiquette, training methods, and, in general, "what to expect" when practicing aikido.

TRANSLATOR' S INTRODUCTION We would like to begin by thanking Doshu Ueshiba Kisshomaru and the Aikikai Foundation for making this family treasure available for publication. We also wish to express our appreciation to those teachers who gave their invaluable help in explaining difficult passages. Due to the historical nature of this work certain difficulties arose, especially in deciding to what degree we should try to produce clear and precise English. Any precise translation could easily become a personal translation, limiting the contents and range of the translator's individual understanding at this particular point in his or her training. Therefore, after consulting some of the highest Sensei in Aikido and other arts it was decided to strive for a translation that would both preserve the simplicity of the original expression and at the same time leave open to the reader at least the possibility of coming up with the broad set of ideas and associations indicated in the Japanese. This book appeared in 1933 and is the first published account of O-Sensei's art. Although not actually written down by him, it is a transcription of lectures and explanations which was later reviewed by the founder and approved as a teacher's manual. The political and historical context of the times should be kept in mind. No attempt has been made to edit the text. The original copy has O-Sensei's title which was simply "Budo Renshu", i.e. "Budo Training". Later the second Doshu annotated this with the word "Aikido". The Dojo decided on using the original name here despite the fact that most Japanese copies are entitled Aikijujutsu Ogi", or "The Secrets of Aikijujutsu". The latter is actually an interpretive heading used by the copyists. The original was hand-written and illustrated. Later this was copied out several times, using tracing paper to reproduce the illustrations. During this process errors easily crept in. By comparing various copies, most of the poems could be deciphered despite their flowery writing style. However only a few of the tracing mistakes have been corrected here. In other cases the terms 'left' and 'right' had been

reversed. This seems to be the result of confusing Nage's point of view Uke's. In this edition these obvious errors have been corrected to match the illustrations. The poems presented the biggest problems. Much effort was spent to offer the reader a translation which presents as closely as possible the same degree of lee- ay for interpretation, insight and error, as appears in the original. Two versions are offered. One reflects the 5-7-5-7-7 syllabic structure of five line, Japanese Waka poetry. Each line in English contains the same groups of words found in the corresponding line of Japanese. The second attempt is to put the poem into a somewhat clearer English syntax. Another interesting point about the poems is that not all of them are original compositions of O-Sensei. At least a few can be traced to other martial traditions. Please note that the parentheses indicate the insertion, for your reference, of a Japanese word used in the text for the preceding English word (except for a few cases in the technique section where O-Sensei used parentheses in the original). Square brackets are the translator's insertions for the sake of the English. By simply deleting the sections enclosed by them, they allow readers to refer to O-Sensei's exact words, if they choose to do so. Although not for the beginner, it is hoped that access to this historically important text will be useful in understanding Aikido and its origins for those who have taken Budo as their 'Way'.
