Readers of *Cheaper by the Dozen* remember Lillian Moller Gilbreth (1878-1972) as the working mom who endures the antics of not only twelve children but also an engineer husband eager to experiment with the principles of efficiency -- especially on his own household. What readers today might not know is that Lillian Gilbreth was herself a high-profile engineer, and the only woman to win the coveted Hoover Medal for engineers. She traveled the world, served as an advisor on women's issues to five U.S. presidents, and mingled with the likes of Eleanor Roosevelt and Amelia Earhart. Her husband, Frank Gilbreth, died after twenty years of marriage, leaving her to raise their eleven surviving children, all under the age of nineteen. She continued her career and put each child through college. Retiring at the age of ninety, Lillian Gilbreth was the working mother who "did it all." Jane Lancaster's spirited and richly detailed biography tells Lillian Gilbreth's life story--one that resonates with issues faced today by many working women. Lancaster confronts the complexities of how one of the twentieth century's foremost career women could be pregnant, nursing, or caring for children for more than three decades. Yet we see how Gilbreth's engineering work dovetailed with her family life in the professional and domestic partnership that she forged with her husband and in her long solo career. The innovators behind many labor-saving devices and procedures used in factories, offices, and

kitchens, the Gilbreths tackled the problem of efficiency through motion study. To this Lillian added a psychological dimension, with empathy toward the worker. The couple's expertise also yielded the "Gilbreth family system," a model that allowed the mother to be professionally active if she chose, while the parents worked together to raise responsible citizens. Lancaster has woven into her narrative many insights gleaned from interviews with the surviving Gilbreth children and from historical research into such topics as technology, family, work, and feminism. Filled with anecdotes, this definitive biography of Lillian Gilbreth will engage readers intrigued by one of America's most famous families and by one of the nation's most successful women.

"Frank Gilbreth chronicles the extraordinary partnership of his parents, which produced not only a dozen children but landmark contributions in the field of scientific management. His story follows Lillie Gilbreth from her childhood in Oakland, California, through her commencement day speech at Berkeley (at a time when few women attended college) to the day in Boston where the slim, shy girl from the West met the big, brash, and bluster Easterner who ran a successful
