This book provides a "Wake-up Call" regarding what the international and domestic situation could look like for America in 2040 absent a change in course. It includes an overview of the significant adverse implications of COVID-19 related activities, lessons learned from past great powers, and key concepts from our nation's founding and past history. It summarizes a broad range of economic, national security and domestic tranquility threats facing America, including the new and dangerous Modern Monetary Theory. It also includes a number of sensible and publicly tested solutions spanning a broad range of policy areas that, if implemented, will create a better future in America and ensure that the U.S. is the first republic and great power to stand the test of time. It concludes with steps that individuals should take to create a better future for themselves, their family and our country.

Asserts that America is straying from its democratic ideals and faltering in a rapidly globalized world community, and challenges policies that are based on a priority of making America "number one" in the world while examining the economic and politicalforces that have brought about contemporary problems.

An in-depth look at California's remarkable 21st century turnaround, focusing on the role played by the state government under Jerry Brown. In the most economically important state in the country—and the 7th largest economy in the world—a political revolution of historic importance has occurred which has not been sufficiently covered by the media. In the state where the Reagan Revolution was born, there has recently occurred a remarkable progressive revolution under the leadership of another governor, four-term Democrat Jerry Brown. Over the past several decades, as it has evolved from a red state to solid blue, California has boldly reinvigorated the notion that government is not a dirty word but rather an instrument for uniting people and improving their lives. From raising taxes on those with annual incomes over \$250,000, to shifting money toward the schools in low-income communities, from seeking environmental alliances with other countries to limit climate change, to the rejection of militaristic solutions to illegal immigration, California has been a laboratory of innovation. Californians have rejected the "race to the bottom" right-wing philosophy that catapulted conservative politics in recent years. That model of endorsing privatization, deregulation, reductions in government spending, and a tax system that disproportionately favors the wealthy, is exemplified by conservative governors and rejected by the pragmatic liberal Jerry Brown. In California Comeback, award-winning journalist Narda Zacchino, who has covered California politics for over three decades, clearly lays out the history of California's initial experiments with progressivism under Brown, its swing to the right under Reagan, near financial collapse under Schwarzenegger, and recent return to stability—bulwarked but the progressive policies made possible by the second coming of Jerry Brown. This progressive mindset, forged in the crucible of the tumultuous last half century, is California's true contribution not only to the country, but to the world.

A church in deep debt with attendance down by the thousands. A college that had lapsed into a coma, its buildings in shambles, its faculty demoralized, its enrollment at rock bottom. A university facing lawsuits, scandal, and near-bankruptcy. Each situation involved different financial needs, different lost dreams, different personal wounds. But they each had one thing in common: each needed a leader who could restore hope,

vision, and viability. Dr. Mark Rutland has led three institutional turnarounds over the past twenty-five years. He has seen organizations that were dying come to new life. And he knows the steps you need to take right now. How do you know what to do to help your church or organization make it, even when circumstances and personnel challenges seem too much to handle? Here are the answers. As Dr. Rutland writes in this New York Times bestseller, the true leader can say, "This book is for the rugged visionaries who see in the wreckage a hope for the future and are willing to pay the price for a relaunch."

"Fighter pilots tell the greatest stories and the great ones tell the best stories of all..." —PAT CONROY, bestselling author of *The Great Santini* and *The Death of Santini* "This book is not only among the finest war writing ever but, like Viktor Frankl's *Man's Search for Meaning*, Solitary sits alongside the most profound reflections on the resilience and capacity of the human soul." —STEVEN PRESSFIELD, bestselling author of *The Lion's Gate* and *The War of Art* "Solitary is a gutsy story of one man's survival, endurance, and strength of will..." —LARRY ALEXANDER, bestselling co-author of *A Higher Call* "I anxiously await the day my own sons are old enough to read it." —RICH COHEN, bestselling author of *Tough Jews* "You will tear through this book..." —RYAN HOLLIDAY, bestselling author of *The Obstacle is the Way* "It grabs you immediately, and doesn't let go until you're finished." —TUCKER MAX, bestselling author of *I Hope They Serve Beer in Hell* "A magnificent triumph of the human spirit...I was captivated from the first page to the last." —SEAN PARNELL, bestselling author of *Outlaw Platoon* Giora Romm was the Israeli Air Force's first fighter ace. As a twenty-two-year-old lieutenant he shot down five MiGs during the Six Day War of 1967. Fourteen months later over the Nile Delta, an Egyptian missile exploded beneath the tail of his Mirage IIIC. Within moments Romm found himself hanging by the straps of his parachute, with a broken arm and a leg shattered in a dozen places, looking down from 10,000 feet. Streams of farmers and field workers converged below onto the spot toward which his chute was descending, with the intention, he was certain, of hacking him to death as soon as his feet touched the earth. No other Israeli pilot had survived capture in Egypt or in any other Arab state. Solitary is Romm's story of his imprisonment, torture, interrogation, release, and return to service. Solitary is not a "war book." It's not a tale of heroism, though if anyone ever qualified for that distinction, it is this story's author. Solitary is not even, in its deepest parts, about captivity or imprisonment. Solitary is about Romm's inner war. It's the story, in his phrase, "of a fall from a great height," not only literally but metaphorically. Romm could not tell his captors the truth about who he was or what he had done. He had to invent an entire fictional biography and keep it straight in his head through months of beatings and interrogations, all the while being held in solitary confinement with his body sheathed from chest to toe in a plaster cast. Solitary is not a grim book. It's full of wry humor, keen self-observations and revelations. An ordeal such as Romm endured is a sojourn in hell, but it is also a passage. Romm fell, and he came back. Solitary is his indelible account of confronting, as few of us ever will, his own fears and limitations, and discovering, ultimately, his capacity to survive and to prevail. —From the Introduction by Steven Pressfield

**A NEW YORK TIMES NOTABLE BOOK OF 2020** From the bestselling author of *Nixonland* and *The Invisible Bridge* comes the dramatic conclusion of how conservatism took control of American political power. Over two decades, Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics. With the saga's final installment, he has delivered yet another stunning literary and historical achievement. In late 1976, Ronald Reagan was dismissed as a man without a political future: defeated in his nomination bid against a sitting president of his own party, blamed for President Gerald Ford's defeat, too old to make another run. His comeback was fueled by an extraordinary confluence: fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism; business executives uniting against regulation in an era of economic decline; a cadre of secretive "New Right" organizers deploying state-of-the-art technology, bending political norms to the breaking point—and Reagan's own unbending optimism, his ability to convey unshakable confidence in America as the world's "shining city on a hill." Meanwhile, a civil war broke out in the Democratic party. When President Jimmy Carter called Americans to a new ethic of austerity, Senator Ted Kennedy reacted with horror, challenging him for reelection. Carter's Oval Office tenure was further imperiled by the Iranian hostage crisis, the Soviet invasion of Afghanistan, near-catastrophe at a Pennsylvania nuclear plant, aviation accidents, serial killers on the loose, and endless gas lines. Backed by a reenergized conservative Republican base, Reagan ran on the campaign slogan "Make America Great Again"—and prevailed. *Reaganland* is the story of how that happened, tracing conservatives' cutthroat strategies to gain power and explaining why they endure four decades later.

No one understands the "Make America Great Again" effort with more insight and more experience than former Speaker of the House Newt Gingrich. Gingrich was an ally of President Ronald Reagan during his 1980 "Let's Make America Great Again" campaign. In 1994, Newt was the architect of the Contract with America and the campaign that ended 40 years of Democratic control in the House of Representatives. As a friend and supporter of President Donald Trump, Gingrich authored the #1 New York Times bestseller *Understanding Trump*, which explained the 2016 election and the early Trump presidency in ways no one else could. In *Trump's America: The Truth About Our Nation's Great Comeback*, Gingrich describes our country's tremendous turnaround under President Donald Trump's leadership - and confronts the desperate efforts by the elites in academia, the media, and the Washington establishment to undermine and distort his achievements. The Americans who elected President Trump expect him to make good on his iconic call to "Make America Great Again." So far, he is making good on his promise. The swamp is being drained, the judiciary is being restored, the economy is growing rapidly, unemployment is in decline, and America's strength and standing as the world's dominant super power is improving daily. Meanwhile, Trump's opponents in Washington and the media are lashing out because they can't stand the fact that the President they deeply oppose is succeeding. Gingrich understands the challenges faced by the White House staff, the role fake news plays in modern politics, and the ropes of legislative infighting in Congress. *Trump's America* tells the truth that the elites in the media and Washington don't want you to know.
