histories, and posters.

A bibliographic survey of the twentieth-century English composer, Sir Malcolm Arnold.

In this third of 4 volumes that include more than 800 composers and over 30,000 compositions Stephen traces the history and development of Classical music in Australia. From obscure and forgotten composers to those who attained an international reputation this volume reveals their output, unique experiences and travails. The formation and demise of music ensembles, institutions, venues and festivals is part of the story and included in the narrative are performers, conductors, entrepreneurs, educators, administrators, instrument makers, musicologists, music critics and philanthropists. A concise yet comprehensive picture of Australian music making can be found in any given year.

An annotated survey of published materials for chamber, concertante, and vocal music originally conceived for wind instruments.

The British horn player Dennis Brain (1921-1957) is commonly described by such statements as "the greatest horn player of the 20th Century," "a genius," and "a legend." He was both a prodigy and popularizer, famously performing a concerto on a garden hose in perfect pitch. On his usual concert instrument his tone was of unsurpassed beauty and clarity, complemented by a flawless technique. The recordings he made with Herbert von Karajan of Mozart's horn concerti are considered the definitive interpretations. Brain enlisted in the English armed forces during World War II for seven years, joining the National Symphony Orchestra in wartime in 1942. After the war he filled the principal horn positions in both the Philharmonia and Royal Philharmonic Orchestras. He later formed his own wind quintet and began conducting. Composers

including Benjamin Britten and Paul Hindemith lined up to write music for him. Even fifty years after his tragic death at the age of 36 in an auto accident in 1957, Peter Maxwell Davies was commissioned to write a piece in his honor. Stephen Gamble and William Lynch have conducted numerous interviews with family, friends, and colleagues and uncovered information in the BBC archives and other lesser known sources about recordings that were previously unknown. This volume describes Brain's life and analyzes in depth his musical career. Its appendices of information on performances will appeal to music historians, and its details on Brain's instruments and equipment will be useful to horn players.

As part of the mission of The Donald Hunsberger Wind Library, the 1994 hardcover edition (University of Rochester Press) of *The Wind Ensemble and Its Repertoire* has now been published in a paperback edition. This compendium of research includes "must have" information on the history and execution of the wind ensemble repertoire.
