A classic Swedish novel about love, faith and spiritual renewal told in the form of a mystery novel.

From one of the bestselling science fiction authors of all time comes this heart-stopping far future novel of an asteroid on a collision course with Earth. A century into the future, technology has solved most of the problems that have plagued our time. However, a new problem is on the horizon—one greater than humanity

has ever faced. A massive asteroid is racing toward Earth, and its impact could destroy all life on the planet. Immediately after the asteroid—named “Kali” after the Hindu goddess of chaos and destruction—is discovered, the world’s greatest scientists begin researching a way to prevent the disaster. In the meantime, Cpt. Robert Singh, aboard the starship Goliath, may be the only person who can stop the asteroid. But this heroic role may demand the ultimate sacrifice.

the care of souls that endeared him to faithful laypeople and clergy alike in a collection of essays on pastoral theology. Capably translated and packed with theological and devotional treasures, this work is a substantive contribution to the English corpus of the Swedish bishop's thought and work, edifying for both shepherds and sheep.

How can Protestant churches overcome their denial--in actual attitudes and actions--of their central belief in justification? The chief paradox of Protestantism, manifest in all denominations, is the blurring and contradicting of the central belief in justification by grace alone through faith alone. The church in America, says the author, has always been prone to preach that being a good

Christian will result in health, wealth, and happiness. Many church practices support a reward and punishment ethic--thereby denying the heart of justification: God's forgiveness. No wonder the laity does not understand the doctrine or its call to a new life! In this criticism of common church attitudes and actions Dr. Hordern contrasts the interpretation of justification found in the teachings of Scripture and the great Reformers with the practical pursuit of works-righteousness. In conclusion he shows how the church could act to enhance, rather than deny, the doctrine of justification--in particular in coping with the important matters of evangelism, attendance, giving to the church, accepting people into the church, and social service.

The Church, who is she? asks Bo Giertz in this book, which, he adds, "is first of all for those who have some notion of the life which is present within the church walls and also have some desire to understand that life better and know more about it." If you're among the tens of thousands who've read Giertz's bestselling novel *The Hammer of God* about ordinary people in their relation to the Church and her message, then you know his ability to engage you in the dramatic events of everyday life. Giertz shows the same engaging ability, when he in *Christ's Church* takes you on a walk from her biblical roots toward her glorious future.

historical context of Christ's life with a novel approach that illuminates nuance and deepens understanding of Christ's words and actions.

Drawing on the classic teaching of the atonement as it is presented by St. Paul and other Christian thinkers, Paul Zahl unfolds its meaning for this generation. He then applies it to the problems of spiritual malaise and meaninglessness, which afflict us today: problems of depression and despair, of loneliness, and of broken relationships. Throughout, the Good News of Christianity--forgiveness, reconciliation, new life--is presented in terms that contemporary readers can easily understand and apply to their lives.

For two millennia Christians have

echoed the pleas of blind men and beggars, "Christ, have mercy!" These words are part of the historic liturgy (the Kyrie) and have been sighed on deathbeds and in sick rooms and after natural and man-made disasters. But what does it mean to ask our Lord and Savior for mercy? And what about Christ's command to be merciful, even as God has been merciful to us?
