Stand Back for the Exploded View!

The key feature that allows this engine to make an additional 13 horsepower and 1 lb-ft. of torque compared to the 177-horsepower four-cylinder engine is a special exhaust system with larger diameter tubing and a variable-valve silencer design that nets a 31% increase in flow relative to the previous generation Accord four-cylinder system.

In the early 1960s, travel-writer Simon Gandolfi drove a VW from England to Goa where he rented a bungalow on the beach at Calangute. And it was on Calangute beach that Gandolfi met and loved Vanessa and explored with her much of the subcontinent. The 2008 terrorist attack on the Taj Hotel in Mumbai prompted Gandolfi to re-explore the subcontinent on a small motorcycle. Collecting a Honda 125 from the factory outside Delhi, he rode for six months and 12,000 kilometres. He rediscovers the rented bungalow become a beach bar, his and Vanessa's bedroom a bottle store - and he learns of Vanessa's death soon after their parting. Memories of his travels with Vanessa became his companions as he continued his ride and are the connecting link in this chronicle of two journeys in which Gandolfi explores both the changes in India and in himself.

A narrative like no other: a cultural history that explores how cars have both propelled and reflected the American experience— from the Model T to the Prius. From the assembly lines of Henry Ford to the open roads of Route 66, from the lore of Jack Kerouac to the sex appeal of the Hot Rod, America's history is a vehicular history—an idea brought brilliantly to life in this major work by Pulitzer Prize-winning journalist Paul Ingrassia. Ingrassia offers a wondrous epic in

fifteen automobiles, including the Corvette, the Beetle, and the Chevy Corvair, as well as the personalities and tales behind them: Robert McNamara's unlikely role in Lee Iacocca's Mustang, John Z. DeLorean's Pontiac GTO, Henry Ford's Model T, as well as Honda's Accord, the BMW 3 Series, and the Jeep, among others. Through these cars and these characters, Ingrassia shows how the car has expressed the particularly American tension between the lure of freedom and the obligations of utility. He also takes us through the rise of American manufacturing, the suburbanization of the country, the birth of the hippie and the yuppie, the emancipation of women, and many more fateful episodes and eras, including the car's unintended consequences: trial lawyers, energy crises, and urban sprawl. Narrative history of the highest caliber, Engines of Change is an entirely edifying new way to look at the American story.

The bicycle is the one machine that liberates, extends and challenges the rider. A humble and elegant machine, each piece of the bike has its own, unique history and evolution. Illustrated with images of original patents and machines that range from vintage originals to modern, this book traces the history of each part and piece of the bicycle.

helped shape the automotive industry and motor sports

What begins as a business proposal turns into a roller coaster ride through life and love in #1 New York Times bestselling author Nora Roberts' *Less of a Stranger*. Megan Miller's beloved grandfather has run Joyland Amusement Park her whole life. But he's not as young as he used to be, so she agrees to help him keep their family playground going even if it means sacrificing her own dreams. So when David "Katch" Katcherton thinks he can just buy Joyland with a quickly scrawled check, Megan isn't about to let some wealthy, attractive hotshot with a need for speed take her and Pops on a merry-go-round ride—no matter how much fun and joy he's determined to bring her...
