"A work from the Johnson Construction Co."

Renowned author and National Book Award winner Dr. Charles Johnson writes that his creative work and Buddhist practice are the two activities in his life that have reinforced each other—and have anchored him. In this wide and varied collection of essays, reviews, and short stories, Johnson offers writings that passionately and compellingly illuminate how politics, race, and spiritual life intersect in our changing culture. Throughout his long and varied creative career, Johnson has been a cartoonist and illustrator, screen- and teleplay writer, novelist, philosopher, short fiction writer, essayist, literary scholar, and professor. His work is often philosophically, politically, and spiritually oriented, and he has deeply explored racial issues in the United States, most notably in his novel *Middle Passage*, which won the National Book Award for Fiction in 1990. Johnson received a MacArthur Fellowship, or "Genius Grant," in 1998. *Taming the Ox* is a wonderful reflection of what Johnson has learned during his passage through American literature, the visual arts, and the Buddhadharm.

National Book Award winner and MacArthur Genius Fellow Charles Johnson reflects on the joys of being a grandparent in this warm, inspiring collection of wisdom and life lessons—the ideal gift for any new parent or grandparent. An award-winning novelist, philosopher, essayist, screenwriter, professor and cartoonist, Charles Johnson has held numerous impressive titles over the course of his incomparable career. Now, for the first time, with his trademark wisdom and philosophical generosity, he turns his attention to his most important role yet: grandparent. In *Grand*, Johnson shares stories from his life with his six-year-old grandson, Emery, weaving in advice and life lessons that stand the test of time. "Looking at the problems I see in the world around me," Johnson writes, "I realize that there are so many things I want to say to him about the goodness and beauty that life offers. What are the perennial truths that I can impart to Emery that might make his journey through life easier or more rewarding?" Johnson shares these truths and more, offering profound meditations on family, race, freedom and creativity. Joyful, lucid and deeply comforting, *Grand* is Johnson at his most accessible and profound, an indispensable compendium for new grandparents and growing grandchildren alike, from one of America's most revered thinkers.

"Were it not for the Buddhadharm, says Charles Johnson in his preface to *Turning the Wheel*, "I'm convinced that, as a black American and an artist, I would not have been able to successfully negotiate my last half century of life in this country. Or at least not with a high level of creative productivity." In this collection of provocative and intimate essays, Johnson writes of the profound connection between Buddhism and creativity, and of the role of Eastern philosophy in the quest for a free and thoughtful life. In 1926, W. E. B. Du Bois asked African-Americans what they would most want were the color line miraculously forgotten. In *Turning the Wheel*, Johnson sets out to explore this question by examining his experiences both as a writer and as a practitioner of Buddhism. He looks at basic Buddhist principles and practices, demonstrating how Buddhism is both the most revolutionary and most civilized of possible human choices. He discusses fundamental Buddhist practices such as the Eightfold Path, *Taming the Mind*, and *Sangha* and illuminates their place in the American Civil Rights movement. Johnson moves from spiritual guides to spiritual nourishment: writing. In essays touching on the role of the black intellectual, *Uncle Tom's Cabin*, and *Ralph Ellison*, Johnson uses tools of Buddhist thinking to clarify difficult ideas. Powerful and revelatory, these essays confirm that writing and reading, along with Buddhism, are the basic components that make up a thoughtful life.

Here is a firsthand account of how a young black boy struggling in the cotton fields of Texas pursues his passionate love of music. How can he make his God-given dream come true in the face of racial hatred and discrimination? How can a young female African slave, brutally torn from her twin sister on the auction block, keep alive the faith to be reunited with that sister more than one hundred years later? This book is a slice of history straight from the hearts of those who lived it. It is a story that everyone needs to read. It is a story of hope and love that proves that not matter how humble the beginnings and how terrible the oppression, God can cause the best to grow out of it all. The answer is, as Granny always said to young Charles, Now listen to me, child. Stead of complaining that roses get thore, be glad that thorns got roses.

Building on the foundations of its predecessor volume, *Matrix Analysis*, this book treats in detail several topics in matrix theory not included in the previous volume, but with important applications and of special mathematical interest. As with the previous volume, the authors assume a background knowledge of elementary linear algebra and rudimentary analytical concepts. Many examples and exercises of varying difficulty are included.

From National Book Award winner Charles Johnson, "the celebrated novelist, short story writer, screenwriter, and essayist...comes a small treasure, one to be read and considered and reread" (*The New York Times Book Review*), showcasing his incredible range and resonant voice. Charles Johnson's *Night Hawks* presents an eclectic, masterful collection of stories tied together by Buddhist themes and displaying all the grace, heart, and insight for which he has long been known. Spanning genres from science fiction to realism, "Johnson's writing, filled with the sort of long, layered sentences you can get happily

lost in, conveys a kindness; a sense that all of us...have our own stories" (The Seattle Times). In "The Weave," Ieesha and her boyfriend carry out a heist at the salon from which she has just been fired—coming away with thousands of dollars of merchandise in the form of hair extensions. "Night Hawks," the titular story, draws on Johnson's friendship with the late playwright August Wilson to construct a narrative about two writers who meet at night to talk. In "Kamadhatu," a lonely Japanese abbot has his quiet world upended by a visit from a black American Buddhist whose presence pushes him toward the awakening he has long found elusive. "Occupying Arthur Whitfield," about a cab driver who decides to rob the home of a wealthy passenger, reminds readers to be grateful for what they have. And "The Night Belongs to Phoenix Jones" combines the real-life story of a "superhero" in the city of Seattle with an invented narrative about an aging English professor who decides to join him. With precise, elegant, and moving language, Johnson creates an "arresting" array of "indelible moments that show Johnson to be a master of the short form" (Library Journal, starred review). *Night Hawks* is "a masterpiece...[that] ultimately offers a message of empowerment and hope" (Oprah.com).

Tells the story of the first black heavyweight champion of the world, Jack Johnson, who rose through the ranks in the early twentieth century.

A fearless experimenter and one of the most important contemporary American writers, Charles Johnson challenges separatist politics and tries to get beyond race as a literary category. In *Charles Johnson's Fiction*, William R. Nash emphasizes and explores the tensions in Johnson's work between his ideal of race as illusion and his methods of articulating racial grievance. Nash examines Johnson's short stories, novels--*Faith and the Good Thing*, *Oxherding Tale*, *Middle Passage*, and *Dreamer*--and the nonfiction work *Being and Race*. Tracing the themes of Johnson's political and artistic concerns as they evolved in his work, Nash locates his fascination with the aesthetics of the Black Arts Movement and his dismissal of separatist black politics and racialist thought. He also considers Johnson's adoption of Western and Eastern philosophies and belief that race is a blinding, limiting category that impedes the exploration of individual and collective identity. In formulating a mode of expression that balances the conflicting demands of race and aesthetics, Johnson crafts a new vision of history and African American identity that signifies on a range of black and white literary predecessors, including Zora Neale Hurston, Theodore Dreiser, Ralph Waldo Emerson, Ralph Ellison, James Baldwin, and Herman Melville. Nash argues that Johnson's hybrid philosophy of Buddhism and phenomenology defies the basic premises of identity formation and leads to the perception of a different self. Juxtaposed with jarring storylines of racial injustice, Johnson's notion that race is an illusion informs his aesthetic, promotes his strategies for battling oppression, and reminds readers what African Americans have already overcome in the quest to cultivate new visions of identity. *Charles Johnson's Fiction* also includes eight of Johnson's cartoons published in *Black Humor* and *Half-Past Nation Time* in the early 1970s.

For the first time in ebook, renowned scholar Charles Johnson's exploration of contemporary black literature and the meaning of the black experience as expressed through the writers Richard Wright, Jean Toomer, David Bradley, and others. Charles Johnson approaches contemporary black literature through the lens of phenomenology. Drawing on such philosophers as Heidegger, Husserl, Satre, and Dufrenne, Johnson addresses the esthetic and epistemological questions surrounding the black experience as expressed by African American authors. In exploring the works of Wright, Toomer, Bradley, and many more, *Being and Race* enlarges our vision of what fiction's purpose is and how it arises from our common experiences.
