"...[written by one of] the world's foremost experts in transcultural nursing. This...much-anticipated comprehensive compendium of evidence-based and best practices...contains exceptionally useful...material for nurse educators in academic and staff development settings and...their students." ó Margaret M. Andrews, PhD, RN, FAAN, CTN Director and Professor of Nursing School of Health Professions and Studies University of Michiganñ Flint Editor, Online Journal of Cultural Competence in Nursing and Healthcare "...a valuable new resource to support efforts...to provide high-quality care that is culturally appropriate... gives the professional nurse a road map for engaging in culturally appropriate, patient-centered, and high-quality care." ó Geraldine (Polly) Bednash, PhD, RN, FAAN Chief Executive Officer and Executive Director American Association of Colleges of Nursing "This ambitious book is a must-read synthesis of the existing knowledge related to transcultural nursing education... builds cultural competence in individuals and in organizations...Dr. Sagar makes an exceptional contribution to...the delivery of culturally competent care in all settings." ó Patti Ludwig-Beymer, PhD, RN, CTN, NEA-BC, FAAN Vice President and Chief Nursing Officer Edward Hospital and Health Services, Naperville, IL Associate Editor, Journal of Transcultural Nursing This comprehensive guide to integrating transcultural nursing education (TCN) strategies in academic and in-service institutions is the only text to fulfill the NLN and AACN mandates for promoting cultural diversity and competencies in these settings. Incorporating evidence-based, best-practice protocols, it provides course syllabi and a wealth of additional teaching aids for all education arenas from foundation classes through in-service domains. The text provides a variety of creative strategies for integrating TCN into academia and practice as a separate course or across existing courses (foundation and life span courses, mental health, pharmacology, nutrition, research, community health, critical care, and transcultural concepts in simulation). Pedagogical tools include cultural assessment instruments, self-learning modules, role plays, unfolding case scenarios,

continuing education, lesson plans, course syllabi, critical thinking exercises, and evidence-based practice information. The book will be of value to nursing students, faculty, educators in staff development settings, and all other professional nurses who wish to provide culturally competent care for their patients. It is a companion volume to the author's text *Transcultural Health Care Models: Application in Nursing Education, Practice, and Administration*. Key Features: Comprises the first text to fulfill NLN/AACN mandates on cultural competencies in education and practice Presents a wealth of pedagogical strategies and teaching aids for academic and in-service settings Includes self-learning modules, case studies, role-playing scenarios, critical thinking exercises, continuing education lesson plans, and course syllabi Incorporates evidence-based, best-practice protocols Covers international partnerships and collaborations

Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection.
