Some people call it learning how to drive stick or how to drive a manual. Whatever you call it, both are the same. Many drivers never learn how to drive a car with a manual transmission, or stick shift. The ability to drive a stick shift will allow you to drive any type of vehicle regardless of it is automatic or manual. You've heard that a driving stick gives you more control of your car in every situation, from a passing maneuver to descending a snowy hill. You've heard driving a stick shift car is more economical at the gas pump. You've heard it's more fun. But you've also heard it's hard to learn. There are gearshifts to master, your engine can stall, your car can roll backward on a hill, and understanding the clutch is a nightmare. So, what if I told you using a clutch is no more difficult than using a faucet, or that your car's handbrake is a lot more than just a 'parking brake', or that I can teach you - in one sentence - how to avoid ever stalling your engine? I've already taught thousands of people how to drive stick - men and women of all ages - normal people, not engineering students or race car engineers. And I can teach you.

aviation and maritime transportation. The book covers a wealth of topics, from accident analysis, vehicle intelligent control, and human-error and safety issues to next-generation transportation systems, model-based design methods, simulation and training techniques, and many more. A special emphasis is given to smart technologies and automation in transport, as well as to user-centered, ergonomic and sustainable design of transport systems. The book, which is based on the AHFE 2017 International Conference on Human Factors in Transportation, held on July 17–21, Los Angeles, California, USA, mainly addresses transportation system designers, industrial designers, human-computer interaction researchers, civil and control engineers, as well as vehicle system engineers. Moreover, it represents a timely source of information for transportation policy-makers and social scientists dealing with traffic safety, management, and sustainability issues in transport.
