Until now, these unique rules (and 45 more) were given out only to Sandler Training clients in special seminars and private coaching. After three decades of proven success, the secrets are out in "The Sandler Rules". And when salespeople know the rules, they get results. Early in his sales career, David Sandler observed that some salespeople work hard and struggle for every deal, while others consistently, and almost effortlessly, uncover new opportunities and close sales. Why is it, he wondered, that two salespeople selling the same product in the same market can have such different results? Are great salespeople born with a special gift -- perhaps the right personality? Were they better educated? Did they have more experience? Were they just lucky to find themselves in the right places at the right times with the right people? No, they simply understood human relationships. Using Eric Berne's Transactional Analysis, Sandler devised a selling system and distilled forty-nine unforgettable rules that are frank, sometimes fun, and always easy to put to use. Sandler Training CEO David Mattson, coauthor of "Five Minutes with VITO", delivers this fresh and often funny guidebook, filled with real-world tactics for successful prospecting, qualifying, deal-making, closing, and referral generation.

What's the secret to sales success? If you're like most business leaders, you'd say it's fundamentally about relationships--and you'd be wrong. The best salespeople don't just build relationships with customers. They challenge them. The need to understand what top-performing reps are doing that their average performing colleagues are not drove Matthew Dixon, Brent Adamson, and their colleagues at Corporate Executive Board to investigate the skills, behaviors, knowledge, and attitudes that matter most for high performance. And what they discovered may be the biggest shock to conventional sales wisdom in decades. Based on an exhaustive study of thousands of sales reps across multiple industries and geographies, The Challenger Sale argues that classic relationship building is a losing approach, especially when it comes to selling complex, large-scale business-to-business solutions. The authors' study found that every sales rep in the world falls into one of five distinct profiles, and while all of these types of reps can deliver average sales performance, only one--the Challenger-- delivers consistently high performance. Instead of bludgeoning customers with endless facts and features about their company and products, Challengers approach customers with unique insights about how they can save or make money. They tailor their sales message to the customer's specific needs and objectives. Rather than acquiescing to the customer's every demand or objection, they are assertive, pushing back when necessary and taking control of the sale. The things that make

Challengers unique are replicable and teachable to the average sales rep. Once you understand how to identify the Challengers in your organization, you can model their approach and embed it throughout your sales force. The authors explain how almost any average-performing rep, once equipped with the right tools, can successfully reframe customers' expectations and deliver a distinctive purchase experience that drives higher levels of customer loyalty and, ultimately, greater growth.

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.
