"Religions speak in symbols-fire, cloud, hills and high places, darkness and light, incense, candles, colors. Religions, though, perhaps love water best. Buddhists use water for blessing. Hindus purify themselves in rivers. Christians undergo baptism in water as a rite of initiation. Followers of Islam and Shinto cleanse themselves with water before prayer. Water means change, purification, and new beginnings. Because water can signify so much to us, it is the major symbol of this book. By studying many religions, we also hope to be cleansed and brought to new life. This book was written for my students. Keeping their needs in mind, I have tried to provide what is essential and to present it in clear language. I want to talk about doctrine and practice. Yet I also hope to show some of those things that have captivated me: religious music, art, and architecture. I want to show my respect for all religious traditions, both in a scholarly and an approachable way. Finally, I hope to invite students not only to read about religions, but also to experience them firsthand. It is like the difference between reading maps of a country and then actually traveling on its roads and seeing its sights. Experience brings the prize"--

How do we study Christian life and thought? How have political and cultural events influenced the experiences of Christians in different places, at different times? How has the world's largest religion been lived in varied parts of the world? The Christian Experience is the first textbook to unite traditional approaches to Christianity with special attention to art, music, architecture, and lived experiences. The material, individual, and personal sides of Christianity are brought to the fore throughout this chronological survey. Every chapter begins with a "first encounter" in order to bring the subject matter to life for students, mirroring the author's approach in his successful book *Experiencing the World's Religions*. This book on Christianity features over 100 color images, maps, and diagrams, and each chapter ends by pointing to additional print and electronic resources. Michael Molloy considers practices, insights, and artistic creations of Christians across the

centuries. The book shows how Christian belief is being practiced in our own time, and it invites readers to imagine how Christianity might evolve in the future.

Presenting both the histories and the prevalent worldviews of the major world religions, Matthews's **WORLD RELIGIONS**, Seventh Edition, methodically introduces students to the richness and diversity of these traditions. The *Worldview* sections in particular make this the most helpful textbook for comparative analyses of the religions. In these sections, students can see how the different religions approach a common set of ten themes that are fundamental to all traditions, including the nature of the Absolute, the place of humans in the world, rituals and symbols, and the prospects for life after death. Furthermore, this text combines insightful, engaging prose with maps, photographs, timelines, excerpts from sacred texts, and other helpful pedagogical aids that provide a comprehensive yet accessible survey of world religions. Warren Matthews's thoughtful and balanced approach depicts the unique traditions and perspectives of diverse world religions with objectivity and respect. There was life before the fall. 1989 was a year of astonishing and rapid change: the fall of the Berlin Wall marked the collapse of communism in Eastern Europe and an end to an entire way of life for millions of people behind the Iron Curtain. Bloc Life collects first hand testimony of the people who lived in East Germany, Czechoslovakia and Romania during the Cold War era, and reveals a rich tapestry of experience that goes beyond the headlines of spies and surveillance, secret police and political corruption. In fact, many of the people remember their lives under communism as 'perfectly ordinary' and even hanker for the 'security' that it offered. From political leaders, athletes and pop stars, to cooks, miners and cosmonauts, the stories collected in Bloc Life evoke the moods, preoccupations and experiences of a world that vanished
