After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend , and her soul makes a first step to healing.

From Mary Blayney, the acclaimed author of *Stranger's Kiss*, comes this irresistible new novel of historical romance featuring the Pennistan family. In *Courtesan's Kiss*, an independent woman is determined to make her way in the world—even if it's a scandalous one. But first she must escape a nobleman with plans of his own In the wake of a broken engagement and shunned by the ton, Mia Castellano does not retire to the country, as a proper young lady might, but sees her chance to escape society's restraints—by becoming a courtesan. In her mind, no unmarried young woman is as free as a courtesan. She alone controls her destiny: managing her own money, having her own house, choosing her lovers. There's only one obstacle in Mia's path—Lord David Pennistan. As a favor to his brother, Lord David agrees to escort Mia to his family's home in Derbyshire, where her guardian awaits. Mia attracts nothing but trouble from the outset of their journey, yet with every adventure they share, Lord David's desire for his charge grows. When they're caught in a compromising situation, Lord David insists that she marry him. But there's only one thing Mia wants from David, and it isn't his charity or his title. Can he convince her before it's too late that the love she wants is already hers—to take or to lose forever? Can he win more from this untamed beauty than just a courtesan's kiss?

Public relations and the media are in a time of major change. The rise of social media, altered media platforms, evolving legislative environments and new models of communication have altered not only the

working environments of public relations and the news and entertainment media, but also many aspects of how these industries work together. Media Relations provides a practical and thorough introduction to media work in this changing environment. Based on a solid understanding of media culture and theory, Jane Johnston shows how to steer a path between the technical and human elements of media relations. She drills down into the different types of media, analysing their applications, strengths and weaknesses, and shows how to target your message to the right media outlets, whether national television, community radio, celebrity magazines or influential blogs. This second edition has been revised throughout and includes new case studies, and new chapters on digital and social media, media campaigns, and legal and ethical considerations. 'Media Relations: Issues and Strategies is written in an engaging, easy to understand style. It provides excellent examples and cases of media relations.' - Global Media Journal

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
