A long term export-import policy for the mineral sector would provide stability and prove to be an incentive for investing in large scale commercial mining activity. Assurances, through such a policy for minerals, will be a key factor for investment decisions, particularly Foreign Direct Investment (FDI) decisions in the sector. 10 8.

NATIONAL MINERAL POLICY 2019

1.1 What regulates mining law? Mining law is predominantly regulated by the Mineral and Petroleum Resources Development Act, 2002 ("MPRDA"), read with the Mineral and Petroleum Resources Development Regulations ("Regulations") promulgated in terms thereof. The MPRDA must be considered with the National Environmental Management Act, 1998 ("NEMA"), which is the primary statute that ...

Mining projects at an industrial scale in Angola typically involve an international investor or operator (such as South African, Russian, Australian and American majors) and one or more local partners. In fact, the Angolan government is very keen to encourage the participation of Angolan companies in mining projects, where these lack the technical

The Mining Law Review

Mining law is the branch of law relating to the legal requirements affecting minerals and mining. Mining law covers several basic topics, including the ownership of the mineral resource and who can work them. Mining is also affected by various regulations regarding the health and safety of miners, as well as the environmental impact of mining.
