Psychologists call these extrinsic motivators, and managers and teachers use them to keep employees and students on track, respectively.

Sometimes it's possible to establish conditions that facilitate self-direction, accountability, and self-motivation.

people to go out of their way to help the physical, mental, or emotional pains of another and themselves.

Compassion is often regarded as having sensitivity, an emotional aspect to suffering. Though, when based on cerebral notions such as fairness, justice, and interdependence, it may be considered rational in nature and
